### Model Description

The Ferrari 296 GTS, introduced in 2022, is the convertible version of the groundbreaking 296 GTB, representing a bold step in Ferrari's journey into hybrid performance. The "296" refers to its 2.9-liter V6 engine, and "GTS" stands for Gran Turismo Spider, highlighting its open-top grand touring character. This model revives the spirit of Ferrari's mid-engine V6 lineage, dating back to icons like the Dino 246, while embracing modern electrification....
